FAO attributes to animal health as a necessary tool for a more sustainable livestock production. Animal products do not only represent a source of high-quality food, but are also a source of income for many small farmers and animal holders in developing countries. Economic growth is accompanied by an increase in consumption of animal products.

The Panafican Animal Health Yearbook (PAHYB) is produced annually by AU-IBAR to share information on animal health in Africa and promote transparency in disease reporting. Thus the major content of the Yearbook is the analysis of monthly disease outbreaks based on the reports submitted by AU-MS within the year.

Animal Health Yearbook Annuaire De La Sante Animale ...

This is why animal health professionals believe in a simple, clear and firm approach for antibiotics – as little as possible, as much as necessary. Each illness is unique, however, by working with professionals – from veterinarians to public health officials – farmers can develop the right treatment to keep our animals healthy, while preserving these tools for the future.

Animal health yearbook 1993.

The last occasion on which this yearbook was devoted to animal health seems to have been 1956. This one marks the centenary of the founding of the Bureau of Animal Industry in 1884, but it is not a historical work, being instead devoted to outlining in simple terms the main problems concerning diseases, feeding and management in 7 classes of livestock: backyard poultry and pet birds; dairy and...
